EN50131	Grade 2
Environmental class	II
	CA12.01482

Adaptable, optimised and stylish

• Different colours available

Convert the standard white version into brown or anthracite grey with the plastics kits to create the desired look.

• ABS plastics

2mm polished finish produces a professional and sleek finish while reducing electrostatic interference.

Faster installation, less invasion, upsell opportunities and the same superior security with two-way wireless technology

• No wires, no fuss

As the system is fully wireless there is no need to run wiring by lifting floorboards or moving furniture, saving you time and money.

• One-Push-To-Learn

A feature in all Enforcer wireless devices that means learning devices onto the system can be done in seconds. A simple one button learning feature for easy installation.

• Signal Strength Indicators

Signal Strength Indicators (SSI) in all Enforcer wireless devices allow the positioning of devices during installation, without the need to refer back to the panel.

• Self-aware sensors

The sensor will tell the control panel when it has low battery, is in fault, or has failed supervision. The sensors provide the information the control panel needs to ensure it stays safe and secure.

Beat the burglar with tamper protection

This ensures that maximum security is maintained against accidental or malicious tampering of the system, providing added peace of mind that the system is secure.

Meet the required security standard with Grading options

The MC1MINI WE is Grade 2 for the superior security any installation needs.
