Enforcer V11

Multiple communications. You're covered.

With Wi-Fi communications onboard as standard, the Enforcer V11 delivers app compatibility straight out of the box, with fast and efficient connectivity to the user's existing router. Additional communication paths can be added for simultaneous messaging to both the app and an Alarm Receiving Centre (ARC) via separate paths; maximising coverage for total peace of mind. That's communications covered.

With the push of a button

The installation of the Enforcer V11 has been enhanced with the addition of a WPS button. By pairing the system with the router with the push of the WPS button, valuable time is saved; maximising efficiency and convenience. One press, it's as easy as that.

Unsupervised zones for cars, vans and caravans

Delivering unprecedented security coverage, unsupervised zones can be set up with the Enforcer V11 to add security peripherals on cars, vans and caravans. Provide additional peace of mind to what's parked outside the property, without risking false alarms when they're parked away. Extend the security, expand the system.

Timed activity for total reassurance

Give users the confidence to maintain independent living, by setting timers to generate a specific response if no movement has been detected. Responses include sending a push notification to a loved one via the app, or even notifying an ARC. Install a system that cares.

Take control with the AndroidTablet and HomeControlHUB

Deliver a completely unified customer experience, with the AndroidTablet and HomeControlHUB app. Fusing the Enforcer V11, cameras and SmartPlug into one, users can surf the web and stream content, as well as control security, video and automation. Find out more by scanning the QR code overleaf and take control to new levels.

Partcode	
Enforcer V11	
Key features	
Onboard/maximum zones	32/66
Onboard/maximum outputs	3/38
Areas (independent or level)	4
Arm/disarm methods	App, pin, prox or keyfob
User codes	80
- Guard/duress	10
System logs	750
Programmable automation types	30
Wireless devices (requires ZEM32-WE*)	
Onboard/maximum* zones	32/64
Keyfobs	32
Arming stations	4
Bells	2
Wired devices	
Onboard/maximum zones	2/34
Onboard/maximum outputs	3/38
Maximum keypads	4 (including onboard)
Maximum readers	4 (including onboard)
Communication	
Module compatibility	DIGI-WIFI, DIGI-LAN, DIGI-GPRS+SIM, DIGI-GPRS, DIGI-PSTN
App compatibility**	✓
Push notifications**	✓
Signalling protocols**	Contact ID IP, Contact ID, SIA IP, SIA3, Fast Format IP, Fast Format and SMS
Technical specification	
Power supply onboard	~15.0VDC
- Maximum rating	0.7A
Panel current consumption	222mA - 75mA
Battery capacity	2200mAh
Other details	
Operating temperature	-10°C to +40°C
Dimensions (W x H x D)	220 x 160 x 50mm
Weight	1025g inc. battery
Certifications	Security Grade 2 Environmental Class II

** App compatibility, push notifications and signalling protocol options are dependent on the communication module.
